The main problems city authorities face in improvement of local communities life are:

- Construction completion of Comrat hospital surgical building;
- Extensive reparation of Comrat hospital surgery and traumatology departments;
- Building of treatment facilities;
- Large-scale replacement of central water-supply networks;
- Cleaning the bottom of Comrat water storage basin from silt sediments;
- Building of modern household waste utilisation factory;
- Building of mmi sports grounds;
- Building of supplementary block of Comrat retirement home;
- Building of temporary shelter for people being in difficult situation;
- Construction completion of hipped roof of municipal educational institutions;
- Building of autonomous boiler rooms in municipal educational institutions.

Comrat City Hall addresses You our earnest request to attract investors who, with the support of city authorities and citizens, could at least partly meet these challenges.
