ASSIGNMENT OVERVIEW

Assignment Title: 1249022 - Benefit Sharing in Hydropower

Assignment Countries:

- countries have not yet been selected but assignment will be related to select case studies in countries

ASSIGNMENT DESCRIPTION

Social license to operate is a critical issue for renewable energy projects, particularly in the hydropower sector which can pose significant environmental and social impacts. Numerous cases in developing and developed countries demonstrated that stakeholder support for hydropower projects is often closely interwoven with the perceived balance of impacts and benefits to the host communities. Perceived absence of benefit sharing can cause objection to the development and lead to stagnation of projects and loss of social license to operate. The objective of the study is to highlight benefit sharing frameworks and document lessons from global experiences. This will help the private sector understand the different models of benefit sharing and how its implementation can support gaining social license to operate for hydropower projects

ELIGIBILITY

Eligibility restrictions apply:

[Please type list of restrictions]

INDIVIDUAL / FIRM PROFILE

The consultant will be a firm.

SUBMISSION REQUIREMENTS

The World Bank Group now invites eligible firms to indicate their interest in providing the services. Interested firms must provide information indicating that they are qualified to perform the services (brochures, description of similar assignments, experience in similar conditions, availability of appropriate skills among staff, etc. for firms; CV and cover letter for individuals). Please note that the total size of all attachments should be less than 5MB. Consultants may associate to enhance their qualifications.

Interested firms are hereby invited to submit expressions of interest.

Expressions of Interest should be submitted, in English, electronically through World Bank Group eConsultant2 (<https://wbgeconsult2.worldbank.org/wbgec/index.html>)

NOTES

Following this invitation for Expression of Interest, a shortlist of qualified firms will be formally invited to submit proposals. Shortlisting and selection will be subject to the availability of funding.

Only those firms which have been shortlisted will receive notification. No debrief will be provided to firms which have not been shortlisted.

Qualification Criteria

1. Provide information showing that they are qualified in the field of the assignment. *
2. Provide information on the technical and managerial capabilities of the firm. *
3. Provide information on their core business and years in business. *
4. Provide information on the qualifications of key staff. *

Project Description

The Project is to support the City of Ekurhuleni's ("CoE" or the "Municipality") FY16/17 capital investment program, through an IFC investment of up to US\$50 million (South African Rands equivalent) in CoE's bond issuance of ~US\$106 million (~ZAR 1.3 billion).

The proposed investment in CoE will be used to support a portion of CoE's capital expenditures in improving and expanding public infrastructure such as roads and mass transit, water and sanitation, power among other social and environmental infrastructure. These projects are of high priority to CoE in improving the quality of life for its residents, and importantly provides enhanced access to public services and infrastructure to underserved areas.

- CoE's infrastructure capex will support i) road infrastructure including pavement of up to 67 kilometers of new roads and the maintenance of over 1,300 kilometers of existing roads; ii) electrical infrastructure including the connection of over 6,000 new households in informal settlements; iii) water and sanitation infrastructure including upgrade of existing infrastructure and installation of new water and sewer pipes to expand access to services to 1,200 settlements. The infrastructure will also support the development of a bus system aimed at connecting the various areas that make up the Municipality and encourage motorists to switch to other more climate friendly modes of transport, making it an important tool in battling climate change.

Project Sponsor and Major Shareholders of Project Company

CoE is one of eight large metropolitan cities in South Africa, with a population of 3.18 million. It contributes 8 percent of the South Africa's GDP and is a crucial transportation hub for South Africa's economy, housing OR Tambo International Airport (the busiest airport in Africa) and South Africa's largest railway hub.

Total Project Cost and Amount and Nature of IFC's Investment

The FY16/17 Capital Investment Program is ZAR5.1 billion (US\$388 million). The proposed IFC investment is up to US\$50 million (South African Rands equivalent) bond investment for IFC's own account

Assignment Description

SELECTION FOR CONSULTANTS BY THE WORLD BANK GROUP

REQUEST FOR EXPRESSIONS OF INTEREST

Electronic Submissions through World Bank Group eConsultant2
<https://wbgeconsult2.worldbank.org/wbgec/index.html>

ASSIGNMENT OVERVIEW

Assignment Title: 1248823 - Support the Lake Victoria Basin Commission to prepare a Strategic Environmental and Social Impact Assessment for the Lake Victoria Transport Program

Assignment Countries:

- Tanzania
- Uganda
- Kenya
- Rwanda

ASSIGNMENT DESCRIPTION

The proposed program of interventions on and around Lake Victoria are expected to contribute to improve transport connectivity and sustainability. Whilst local impacts are identified and addressed in site specific ESIA, the lake ecosystem is large, complex, multi-dimensional and dynamic. Understanding the social and environmental issues thus requires comprehensive observation and management at the catchment scale in a holistic manner. Given the wider scope of the interventions on the Lake Victoria basin (both at the ports, but also with the lake itself), with knock-on or cumulative effects on the lakes overall catchment area, a strategic planning framework for the development and protection of the lake, its dependents, and associated infrastructure is critically important. This assignment is designed to support the LVBC do that.

FUNDING SOURCE

The World Bank Group intends to finance the assignment / services described below under the following:

- BANK BUDGET
- Tanzania - Lake Victoria Transport Program Phase 3 - Preparation

ELIGIBILITY

Eligibility restrictions as per the Guidelines for the Selection and Employment of Consultants under IBRD Loans and IDA Credits and

Grants by World Bank Borrowers.

INDIVIDUAL / FIRM PROFILE

The consultant will be a firm.

SUBMISSION REQUIREMENTS

The World Bank Group now invites eligible firms to indicate their interest in providing the services. Interested firms must provide information indicating that they are qualified to perform the services (brochures, description of similar assignments, experience in similar conditions, availability of appropriate skills among staff, etc. for firms; CV and cover letter for individuals). Please note that the total size of all attachments should be less than 5MB. Consultants may associate to enhance their qualifications.

Interested firms are hereby invited to submit expressions of interest.

Expressions of Interest should be submitted, in English, electronically through World Bank Group eConsultant2 (<https://wbgeconsult2.worldbank.org/wbgec/index.html>)
