

Dear Sir/Madam,

We are preparing a proposal to be submitted to the [topic CIRC-2-2016-2017 “Water in the context of the circular economy”](#) of H2020 focused on [wastewater treatment through anaerobic digestion](#).

The main phases of the proposal will be:

- ✓ Wastewater Treatment. Anaerobia - nitrification.
- ✓ Concentration Systems of soluble ions: Reverse Osmosis.
- ✓ Sludge pre-treatment. Enzyme fermentation.
- ✓ Hydrolyzed organic matter methanation.
- ✓ Algae production.
- ✓ Agronomic definition.

Currently, the consortia is made up of the University of Cadiz, the University of Seville, the Centre of New Water Technologies (CENTA), and the technological enterprise BIOAZUL.

We search for an SME specialized in the design and construction of an anaerobic digestion bioreactor.

Please, if you are interested in participating and joining our consortia, contact the following person:

Montserrat Pérez García

Environment Technologies Department

University of Cadiz

11510-Puerto Real-Cádiz

Tel ++34 956016158

Web <http://www.uca.es/dpto/c149>

The deadline to submit the proposal is March, the 8th, so **we would need to receive your interest as soon as possible.**

Looking forward to your reply,

Sonia Sánchez
